

THE TRIPLE GODDESS 2017 LUNAR ALCHEMY CHART

At every new moon we plant seeds for growth and positive change. At every full moon we let go of what no longer serves us and connect to what we are grateful for in our lives. Use this lunar alchemy chart to set your intentions for the new and full moon each month.

To create your intentions take a deep breath, centre yourself and connect to your heart's wisdom. Visualise and really feel in to your intentions. Write these down in the space provided as positive affirmations, offering them over now to the universe to unfold in perfect, divine timing. It is best to do this within 8-10 hours at the turn of each full and new moon.
